### CABLE IS COMING.

Judge Hartwell Says It Simply Waits on the State Department.

Judge A. S. Hartwell returned by the Doric from the states last night, whether he went nine weeks ago. The most of the time was devoted to business and to looking after his children in school.

"There is nothing of great importance in the cable situation," said Mr. Hartwell. "At San Francisco the Associated Press announced that I was going to Boston to reorganize a syndicate to help out the Scrimser cable scheme. Nothing could be more ridiculous than such a statement. General Scrimser is in the habit of running his own syndicates."

"The situation that our contract must be approved within six months by the secretary of state has considerably embarrassed matters. Before his retirement Judge Day declined to commit himself on the cable proposition, and Mr. Hay has not yet taken it up. Final arrangements cannot be entered upon until the action of the department of state is learned."

"No, I cannot say that nothing will be done before December. It is not impossible that a start may be made upon the preliminaries before that time. Everything depends upon the action of the state department."

General Scrimser will arrive here in December from Japan. He will be entertained at that time by Judge Hartwell, and will be given an insight into conditions as they exist locally.

## TYPEWRITERS!!

In no line of mechanics is excellence of construction of such vital importance as in Typewriters.

The PEERLESS is especially noted for its durability, simplicity and its speed.

Considering first cost only the PEERLESS is not one of the so-called "cheap machines," but looking at it from a business point of view, comparing quantity and quality of work, loss of time from breakdowns on steamer days, when the Typewriter is most needed, and cost of repairs, as well as the life of the Typewriter, the PEERLESS is without an equal and is the cheapest machine on the market.

### WILL GO BY WATER.

Opposition to Sugar Trust will Ship via Panama.

Eastern refined sugar coming to the San Francisco market will not arrive by rail, and the local firms interested in the importation have both the Panama and the Horn routes under consideration at the present time. The Southern Pacific rate is \$1.65 per 100 pounds from New York, which means that sugar cannot be laid down in San Francisco for \$6.65 per 100 pounds, at which price it is entirely out of competition with western refined sugar.

It has been charged that the railroad company has advanced its rates to the figure named, but Freight Traffic Manager Sprout says that the rate has always been \$1.65, and at that figure no offerings have been made. By the Horn or Panama routes sugar can be laid down in San Francisco at \$5.30 per 100 pounds, which is a competitive rate. By reason of the tariff on refined sugar it is impossible to import the Chinese product, even if it were sufficient to be a factor in the trade.

The 2,500 sacks of sugar alleged to be on the way from New York at the 50 cent rate, which is denied by the officers of the railroad company, is not a sufficient amount to cut any material figure in the local market, yet in spite of this fact there has been no advance in the rate of refined sugar. It is rumored that the rate will go up after the Arbuckle shipment has arrived and been disposed of, which will take several months.

## TRIBUTE TO AN ACTRESS

EFFECT OF STAGE ILLUSION ON A LADY.

How Nance O'Neil Wrought Upon the Feelings of Her Audience When She Rendered Nancy Sykes.

One of the highest tributes that could be paid to an actress or a company of players was an incident that occurred during the engagement of the McKee Rankin company and Miss Nance O'Neil at the Columbia theater in San Francisco last month.

A well dressed woman in a front seat was so wrought up by the illusion of the play that she rose and screamed to the actors. The attendants were obliged to conduct her to the lobby, where after some time she regained her calmness and a sense of her surroundings.

It occurred during the scene when Bill Sykes murders Nancy. McKee Rankin was the murderer; Nance O'Neil the miserable girl.

Readers of Dickens remember the terrible and shocking murder in Oliver Twist. It is one of the most vivid pieces of narrative in fiction. One personal imprint it on the memory as a glowing brand.

In the play the utter brutality, the wretchedness, the horrorfulness of the murder are accentuated and made more real by the illusive assistance of the scenery and the actors. The most experienced theater goer who has lost all sense of illusion and contemplates a play from the front as though he were behind the scenes, holds his breath and forgets that it is only playing, when Nance O'Neil creeps upon the stage after Bill Sykes has struck the blow. At that moment last night the audience, which was straining every sense to miss no word, no movement of the supreme young actress, was distracted and almost terrified by a hysterical feminine voice, which shouted:

"Oh, God—Oh, don't kill her; don't kill her! This is too cruel!"

The speaker's emotion overcame her and she could no longer articulate words. She stood upright, tense, moaning, sobbing, her arms stretched in supplication toward the stage.

Her excitement was contagious. Gasps and sobs were heard from all parts of the house. In one of the boxes a woman fainted. In a few seconds the scene ended, the curtain fell and the lights went up. The whole audience fell back into their seats with sighs of relief. In the lobby the hysterical woman who had caused the commotion was restored to calmness. She left the theater directly.

Women have been similarly overcome every night during the run of Nancy Sykes. It is almost too emotional a play for persons of weak nerves and too lively imaginations to witness.

## DECEMBER FIRST OR STOP

U. S. PEACE COMMISSIONERS MAY COME HOME.

Negotiations Hang Fire—The Executive Said to be Willing to Assume \$40,000,000 Debt for the Philippines.

WASHINGTON, October 28.—A dispatch to the Examiner says: The important facts in connection with the peace negotiations at Paris were developed today. They were:

First—The American peace commissioners have decided that an agreement must be reached by December 1st, or they will come home.

Second—Their demands will include a cession to the United States of the entire group of the Philippine Islands.

Third—The Washington administration does not expect Spain to sign the peace treaty, but believes that the United States will have to exact its demand by force.

A high administration official said today that a renewal of hostilities between Spain and this country was far from being a remote possibility. He continued:

I believe the war will be resumed and that we shall have to take what we are demanding from Spain by force if need be. I do not believe the Spanish commissioners will sign such a treaty as we are proposing and I fully expect they will withdraw from negotiations and go back home, protesting against what they will call the unjust exactions of the Americans.

### FORTY MILLIONS.

WASHINGTON, October 28.—A dispatch to the Chronicle says: President McKinley has decided to keep all the Philippine Islands. The United States will assume \$40,000,000 of the Philippine debt in consideration of a quit claim by Spain. The American peace commissioners will be instructed to lay the President's decision before the Spanish commissioners at Paris on Monday.

The statement of the administration program is made on the highest authority. It was given out after today's cabinet meeting, at which the Philippine question was fully discussed. The President's decision has been fore-shadowed, but he had refrained carefully from committing himself.

The President has been informed that the Spanish commissioners would demand a cash indemnity if the United States decided to hold all the Philippines. The Spanish contention is that this country is not entitled to keep anything but Manila. The Spaniards admit that they are powerless to prevent Uncle Sam from taking what he chooses, but they maintain that he should pay good American gold for all he keeps outside of Manila.

In abandoning claims in connection with the so-called Cuban debt the Spanish commissioners threw themselves on the mercy of the Americans. The President has been moved to pity by their plea.

### WILL VOTE IN MID-OCEAN.

Kansas Volunteers May Decide State Election.

TOPEKA, Kans., October 28.—The members of the First battalion of the Twenty-second Kansas regiment, that has sailed from San Francisco for Manila, carry ballots with them, and will vote on Kansas officers about midway between Honolulu and Manila.

These 600 men live in Western Kansas, where members of the legislature have been elected by less than twenty-five majority. Both state committees admit that fully twenty-five members of the house in sparsely settled western counties can be chosen or defeated by the mid-ocean vote. What worries them is the possibility of a delay in receiving the returns here until February 1st, one month after the legislature meets.

With a very close vote on state officers, as is now predicted, still greater complications confront them.

### TWO HOUSES BURNED.

An alarm of fire was sounded just after 3 o'clock yesterday afternoon. One house on Emma street was destroyed and another was ruined. Both belonged to H. A. Heen, the wealthy Chinese merchant and planter. All of the fire houses sent engines to the scene. The loss was not over \$2,000.

### AT THE Y. M. C. A.
